Separate Sessions: Netherlands Course in Tropical Medicine and Hygiene (NTC)

The Netherlands Course in Tropical Medicine and Hygiene (NTC) prepares health professionals for working in low-income countries. The NTC can be taken as a stand-alone course but also as part of the Master in International Health and Tropical training of doctors. Now it is also possible to follow separate sessions.

Do you want to refresh your knowledge on topics such as HIV / AIDS, TB, malaria, pediatrics, essential drugs, gender, traditional healing, health systems? Now it is possible to follow separate sessions on these topics. In the overview below you can see which classes might be of interest to you:

| Course dates: The NTC runs twice a year: spring (from March-June) and autumn (September-December) |
| Class hours: 09:00-12:00 and 13:00-16:00 |
| Fulltime: 3 months |
| Part-time: separate sessions possible |
| Price sessions: € 40,- per session hour + one time € 25,- administration fee (note: if you take more than 18 session hours € 25,- per hour!) |
| Admission criteria: Bachelor degree and relevant working experience |

The NTC is organized by the University of Amsterdam, the Free University and KIT (Royal Tropical Institute).
